Abu Dhabi Energy Storage Battery Project

Overview

Why should UAE invest in solar power & battery energy storage?

The world-leading project reflects the vision and commitment of the UAE leadership in driving socioeconomic and environmental progress. The accelerated integration of solar power and advanced battery energy storage sets a new benchmark in clean energy, driving sustainability and reducing carbon emissions.

How many GW of solar & battery storage will be produced?

The project will combine 5.2 GW of solar with 19 GWh of battery storage to produce 1 GW of continuous baseload renewable energy. The project was announced today by Sultan Ahmed Al-Jaber, United Arab Emirates Minister of Industry and Advanced Technology, at the opening of the Abu Dhabi Sustainability Summit 2025.

Who will build 'round the clock' solar-plus-battery storage in Abu Dhabi?

Masdar, the Emirati state-owned renewable investment company, has announced preferred contractors and suppliers for the world's first giga-scale 'round the clock' solar-plus-battery storage project in Abu Dhabi.

Does EWEC have a large-scale solar project in Abu Dhabi?

EWEC has several large-scale solar projects in the region, including the 2 GW Al Dhafra solar project in Abu Dhabi. Earlier this month, it put out a request for proposals for 1.5 GW of solar.

Will Masdar & EWEC build a solar-plus-storage project in Abu Dhabi?

Masdar and Emirates Water and Electricity Co. (EWEC) plan to build a \$6 billion, 5 GW/19 GWh solar-plus-storage project in Abu Dhabi, with operations set to start by 2027. Emirati state-owned renewable investment company Masdar is partnering with EWEC to build a giant solar and battery energy storage (BESS) facility.

What is the largest combined solar and battery energy storage system?

Delivering up to 1 gigawatt (GW) of baseload power every day generated from renewable energy, it will be the largest combined solar and battery energy storage system (BESS) in the world.
