

## SolarTech Power Solutions

# Application of solar double glass modules

## Overview

---

What is a double-glass solar module?

**ABSTRACT:** Double-glass modules provide a heavy-duty solution for harsh environments with high temperature, high humidity or high UV conditions that usually impact the reliability of traditional solar modules with backsheet material.

What is double glass photovoltaic module?

Preface To further extend the service life of photovoltaic modules, double glass photovoltaic module has recently been developed and studied in the PV community. Double glass module contains two sheets of glass, whereby the back sheet is made of heat strengthened (semi-tempered) glass to substitute the traditional polymer backsheet.

How reliable is Canadian Solar's Dymond double glass module?

Canadian Solar's Dymond double glass module passed 3 times IEC standard test and IEC 61730-2:2016 multiple combination of limit test and obtained VDE report, which fully indicate high lifetime and high reliability of this double glass module. This paper presents a detailed reliability study of Canadian Solar's Dymond double glass module.

What is a double glass module?

Double glass module contains two sheets of glass, whereby the back sheet is made of heat strengthened (semi-tempered) glass to substitute the traditional polymer backsheet. With \* Corresponding author. Tel.: +86 13776101913; fax: +86 51268961413.

Why are double-glass modules important?

Double-glass modules have increased resistance to cell micro-cracking, potential induced degradation, module warping, degradation from UV rays, and sand abrasion, as well as alkali, acids or salt mist.

How to improve the reliability of solar module design?

remedy most of the reliability issues in PV module design. The traditional backsheet materials of conventional solar modules was replaced with toughened (heat strengthened) 2.5 mm-thick glass. To reduce the weight of the module, the front glass thickness was also reduced to 2.5mm(Fig. 1).

## Application of solar double glass modules
