China upgrade circuit breaker in France

Overview

What are French fuses & breakers?

Both fuses and breakers in French systems are double pole, this means both live and neutral are isolated in the event of a trip, ratings are the same for both – typically 2, 6, 10, 16, 20 and 32 amps and both are connected into distribution boards in exactly the same way.

Are fused plug tops common in France?

Fused plug tops are not common in France which means whatever is connected into a power outlet, is protected at the consumer unit only, unless there is a sub fuse within the appliance or power outlet. (i.e. your computer or TV may well be connected to a 20amp fuse or circuit breaker).

How do I choose the best fuses & circuit breakers?

The modern approach is for one fuse box located convenient to the daily living area of a property with the rating of fuses or breakers clearly marked in amps. The choice of using fuses or circuit breakers is entirely yours, there are technical benefits in choosing circuit breakers but they are more expensive.

What is the standard electricity supply in France?

The standard domestic electricity supply in France is single phase 230 volts, 50Hz. It is also common to find a 3-phase 380v distributed supply in larger properties. The electricity supply authority EDF (Electricite de France) will provide a meter, fuses and a main current operated circuit breaker (disjoncteur différentiel).

Which circuit breaker is suitable for AC 50/60hz?

KNL1 series Residual current circuit breaker (without over-current protection) is suitable for the line of AC 50/60Hz, voltage 240V (2pole)/415V (4pole), rated current up to 63A. When . GAONENGGELE ELECTRICAL SHARES CO., LTD.

Do French properties have a fuse box on each floor?

Older French properties may have a fuse box on each floor depending on how many floors there are in the property. The modern approach is for one fuse box located convenient to the daily living area of a property with the rating of fuses or breakers clearly marked in amps.
