

## SolarTech Power Solutions

# Construction of energy storage project in Milan Italy

## Overview

---

What is the 2.3 GW battery storage project in Italy?

Also underpinning the 2.3 GW battery storage projects across Northern and Southern Italy is renewable energy security. The project, as put in official project partnership communication, will enable “it [Italy] meet its 2030 renewable energy targets, decarbonising the power system whilst ensuring security of supply”.

Does Italy need energy storage?

The partnership’s growth aligns with Italy’s accelerating renewable energy expansion, and thus need for energy storage. According to Terna , the Italian transmission system operator, the country added 2.9 GW of wind and solar capacity in 2022, 5.7 GW in 2023, and another 5.4 GW in the first nine months of 2024.

Can Italy make battery storage projects commercially attractive?

“Italy has a clear need for storage, and the enabling market and regulatory mechanisms are being put in place to make battery storage projects commercially attractive.” CIP’s Flagship Fund CI V, completed in March 2025, exceeded its €12bn (\$12.9bn) target.

Will GCSS & CIP's 2.3 GW battery storage project boost Italy's Bess market?

GCSS and CIP’s 2.3 GW battery storage project in Italy offers a multi-facet view of its utility. At its core, it will boost Italy’s BESS market in Europe. The project will create a reliable renewable energy network across Italy while succinctly affirming the project’s business case.

Why is CIP launching large-scale battery projects in Italy?

The development of large-scale battery projects aligns with CIP’s growing focus on energy storage. With Italy’s supportive regulatory environment, the partnership aims to leverage CIP’s expertise to advance its storage

infrastructure projects. The move also supports Italy's aim to meet the nation's 2030 renewable energy targets.

When will a stand-alone battery project start in Italy?

The collaboration will focus on both Northern Italy and Southern Italy for the deployment of stand-alone battery projects. The first project will be ready for construction in 2025. Is your company planning to adjust overall business investments due to high tariffs?

## Construction of energy storage project in Milan Italy

### ACL Energy, BW ESS and Penso Power form an Italian Battery Energy

February 14, 2024 ACL Energy, a Milan-based battery energy storage developer, today announces a joint venture partnership with BW ESS, an energy storage business dedicated to ...

### Italy's First Energy Storage Power Station: Charging Toward a ...

When Italy flipped the switch on its first grid-scale energy storage facility in 2023 near Milan, it wasn't just local engineers doing cartwheels. This 35MW lithium-ion battery system - about the ...

- LiFePO<sub>4</sub>
- Wide temp: -20°C to 55°C
- Easy to expand
- Floor mount&wall mount
- Intelligent BMS
- Cycle Life:≥6000
- Warranty :10 years

### CIP and GCSS to oversee 2.3 GW battery storage (BESS) projects ...

Mar 26, 2025 · GCSS and CIP's 2.3 GW battery storage project in Italy offers a multi-facet view of its utility. At its core, it will boost Italy's BESS market in Europe. The project will create a ...

## Enel and Masdar in talks for joint energy storage project in Italy

Jul 16, 2025 · Italian energy group Enel is in preliminary talks with Masdar, the state-owned renewable energy company of Abu Dhabi, for a potential joint project to develop energy ...

## Italy: Enel building 1.6GW of battery storage for ...

Apr 24, 2023 · Image: Enel Green Power. Enel Green Power will start building 1.6GW of battery storage projects in Italy this quarter, with the country's utility ...

## Copenhagen Infrastructure Partners enters partnership with GC Storage

Mar 26, 2025 · The partnership will jointly develop the pipeline of large-scale stand-alone battery projects across both Northern and Southern Italy  
COPENHAGEN, Denmark, March 26, 2025

...

## Energy storage equipment installation in Italy

ibly configured to deliver multiple market As of 30 June, 2023, a total of 3,045MW and 4,893MWh of energy storage is installed in Italy according to ANIE Rinnovabili, the national ...
