

SolarTech Power Solutions

Containerized generator set dimensions

Overview

Our containerized generator for gas generators have a standard 20 feet and 40-feet length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.

What is a containerized generator set?

The durable and robust Containerized Series generator sets are ideally suited for independent power producer (IPP), mining, oil and gas, or any project where harsh conditions, challenging environments and the demand for reliable, continuous remote power exist.

What is a containerized diesel generator?

Discover the containerized diesel generators at DINGBO Power, offering a mobile and secure power solution for a wide range of applications. These generators are housed in robust containers, providing enhanced security and portability. Ideal for use in remote, outdoor, or temporary sites, they ensure reliable power delivery in any setting.

What are containerized generator / packaged container and enclosure options?

Containerized generator / Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets, balance of plant equipment, and switchgear.

What is the standard ventilation for genset containers?

The standard ventilation is designed for ambient temperatures from -25°C to +40°C. The genset containers can be equipped with several additional features to enable operation at lower temperatures on request. Type 6 containers are available with a similarly broad range of options that we offer for the Type 2 / 3 / 4 containers.

Why should you choose Cummins Power Generation containerized series generator sets?

Factory pre-integrated and customizable per site requirements, the new Cummins Power Generation Containerized Series generator sets can provide significantly shortened lead time for installation, and a lower cost of ownership via a flexible design.

Containerized generator set dimensions

Containerized Generator - Fujian Yineng Generator Co., Ltd

Manufacture and design gen-set's container according to ISO container standards, gen-sets below 1250kva adopt 20ft container and above 1250kva adopt 40'ft container. Container with ...

500 kVA Containerised Diesel Generator , Aggreko UK

Jul 23, 2024 · Solve your power generation challenges with our 500 kVA container diesel generator hire service - whether you're facing an emergency outage or a planned project. For ...
