# **Gabon Portable Power Agent**

## Overview

---

Can Gabon become a regional energy hub?

As Gabon transitions from oil dependency to cleaner energy, gas-fired power generation will bridge the gap and support the country's shift. Key infrastructure developments, such as the Owendo plant and floating power solutions, position Gabon for long-term energy security and enhance its potential as a regional energy hub.

Is Gabon a gas-to-power leader?

The Owendo power plant, VAALCO's production expansion and the commissioning of Karpower's floating plants are positioning Gabon as an emerging gas-to-power leader, creating extensive opportunities for investors and service companies to explore at the upcoming Invest in African Energy Forum in Paris.

Will Owendo gas power plant increase Gabon's electricity generation by 50%?

The Owendo gas power plant project, which will commence construction in June, is expected to play a vital role in Gabon's goal of increasing its electricity generation by 50% by 2025.

What is a natural gas plant in Gabon & Wärtsilä?

Developed by Gabon Power Company in partnership with Wärtsilä under a build-own-operate-transfer IPP model, the plant will primarily utilize natural gas from Gabon's offshore fields to generate electricity, addressing both growing domestic demand and facilitating regional energy trade.

How will Gabon expand its power generation capacity?

The demand for advanced technology, skilled labor and power generation services will continue to rise as Gabon expands its electricity generation capacity, presenting significant opportunities for companies in gas extraction, power generation and transmission.

When will the Owendo gas-to-power plant start in Gabon?

The announcement that work on the long-awaited Owendo gas-to-power plant will officially begin in June, alongside VAALCO's expansion of production capabilities in Gabon and the successful commissioning of Karpower's floating power plants, underscores the country's commitment to gas as a cornerstone for its industrialization and energy transition.
