Generator container trailer

Overview

What is a type 6 generator container?

Our Type 6 generator containers consist of two or three pre-assembled modules, depending on the engine type and the application. The overall package (gas engine, container, and auxiliary components) is available for 65, 70, 75 and 80 dB (A) in 10m (surface sound pressure level according to DIN 45635).

What is a Tier 4 containerized generator?

Our Tier 4 containerized generators are high-powered —500 kW to 1250 kW— units packaged in 30-foot or 48-foot ISO containers.

What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Can a diesel generator run a reefer container?

Clip on Type Diesel Genset Generator for Reefer Container from China manufacturer - ZHEJIANG UNIVERSAL MACHINERY CO., LTD. A generator can be an important addition to your refrigerated container. A diesel generator is able to run a container for up to 5 days without the need to refill fuel. UNIV we are reefer genset manufacturer, since 2007yrs.

How much does a generator weigh?

A generator of this type has a weight of around 700 kgs . Clip-on Genset Clip-on genset is a generator that is linked to a reefer container to provide power during transport or when shore power is not available. This addition to a reefer container is ideal for events, catering or as temporary (additional) cooling capacity.
