High voltage switchgear factory

APPLICATION SCENARIOS

Overview

Who is China high voltage switchgear manufacturer and supplier?

KDM is one of the leading China High Voltage Switchgear manufacturers and Suppliers. We offered a full range of main products in order to meet various customers' requirements. High voltage switchgear such as control boxes, insulators, and others. All our products meet and exceed the main testing.

What is a high voltage switchgear?

Our high voltage switchgear is made with high quality materials and components to ensure its long service life and reliability. DOHO HV switchgear products are designed for installation in locations with high voltage systems such power transmission and distribution.

What types of switchgear do you offer?

We offer a broad range of switchgear products, including low voltage, medium voltage switchgear, and high voltage switchgear. We also offer a wide variety of components in all switchgear categories, such as circuit breakers, fuses and an array of switches.

What is a high-voltage DC switchgear power system?

High-voltage DC switchgear power systems are used to transmit large amounts of power from remote generation sites and connect power grids across large geographic areas. They are high-voltage direct current systems that are now replacing many high-voltage AC systems, such as on a train's third rail power system.

What are the different types of high voltage switchgear?

Air Insulated High Voltage Switchgear. This type uses air as the main insulating material for conductive components in the switchgear. Gas Insulated High Voltage switchgear. It is a type of high voltage switchgear that uses superior dielectric gas (SF6) as the main insulating material for

conductive elements within the switchgear.

What is a low voltage switchgear?

DOHO low voltage switchgear is designed for safe and reliable distribution of electrical power in residential, commercial, and industrial applications. This type of switchgear is available in a variety of configurations, including circuit breakers, contactors, fuses and other components.
