How much does the Honiara base station battery cost

Overview

How many battery swap stations does Nio have?

Nio had more than 2,500 battery swap stations at the time, providing an average of 30-40 services per day per station. The company will announce its unaudited financial results for the third quarter of 2024 on Wednesday, November 20, before the US markets open, and will celebrate its 10th anniversary on November 25.

Does Nio have a battery swap station in Shanghai?

(File photo shows a Nio ET7 having its battery replaced at a battery swap station in Shanghai. Image credit: CnEVPost) Nio (NYSE: NIO) already has more than 150 battery swap stations in Shanghai, where it is headquartered, with the vast majority providing more than 100 services a day, said Stanly Qu, CFO of the Chinese electric vehicle (EV) maker.

Could a Nio battery swap station break even?

During its second-quarter earnings call on September 5, Nio management said the a swap station could break even if it provides 60 services per day and charged a fee comparable to the cost of supercharging. Nio had more than 2,500 battery swap stations at the time, providing an average of 30-40 services per day per station.

How many services can a battery swap station provide a day?

From an enterprise value perspective, the business case for the battery swap service is clear: a battery swap station can break even with 60 to 70 services a day, he said. Nio's latest fourth-generation battery swap station can provide up to 480 services a day, he added.
