How to install the battery cabinet in the computer room

Overview

How do I connect a battery cabinet to a power system?

Procedure 1. Furnished with the battery cabinet are battery disconnect circuit breaker alarm lead assemblies. Refer to the power system installation manual to use these alarm leads to connect the battery cabinet battery disconnect circuit breaker alarm into the power system alarm circuits.

How do I connect a ups to a battery cabinet?

Locate the UPS-to-battery cabinet breaker sensing cable inside the first battery cabinet. Mate the connector on this cable with the matching connector in the cabinet (see Drawing 164201536-8 on page A-17). Route the other end of this cable through conduit (top or bottom entry) to UPS cabinet and connect to terminal strip TB2.

How do I install a battery cabinet breaker?

Locate the battery cabinet-to-battery cabinet breaker sensing cable in the first battery cabinet. Route this connector into the cabinet to the immediate left and mate with the matching connector in that cabinet (see Drawing 164201536-8 on page A-17). If installing multiple battery cabinets, proceed to Step 3; otherwise, proceed to Step 5.

How do you secure a battery cabinet?

Secure the battery cabinet position by lowering the leveling feet until cabinet is not resting on the casters. Ensure the cabinet is level and matches the height of the installed UPS cabinet. NOTE Two cabinet joining brackets are provided in the field kit for securing each cabinet at the top and bottom.

How do you reinstall a battery cabinet?

Reinstall the left side panel on the left-most battery cabinet after interconnection. Push the third battery cabinet into position, align with the seismic anchoring (if any), level the battery cabinet, and interconnect with the

other battery cabinets as described in step 2, step 3, and step 5.

How do I install a VDC battery cabinet?

Set first battery in cabinet and attach the long lead (fast-on connector side marked positive) from the cabinet to the fast-on terminal on the positive terminal of the battery. See Figure 24. Facing left Facing right Facing left
