

## SolarTech Power Solutions

# Huawei Asia Energy Storage Division

## Overview

---

How will Huawei & Keppel collaborate on energy storage solutions?

Under an MOU, the two will combine Huawei's digital expertise with Keppel's energy infrastructure expertise to develop innovative energy storage solutions.

How will Huawei and Keppel develop energy technologies for specific projects?

Courtesy: Huawei They will develop energy technologies for specific projects. Huawei International Pte. Ltd. and Keppel Ltd.'s infrastructure division are collaborating to promote the wide adoption of photovoltaic (PV) and battery energy storage system (BESS) technologies in Asia and other key markets.

Why is Huawei reshaping the future of Energy Innovation?

By leveraging Huawei's cutting-edge digital power technologies and Keppel's expertise in energy management, we are not only meeting the growing demand for renewable energy to support Singapore's global leading position in green development – we are reshaping the future of energy innovation.

Who are Huawei international & Keppel?

Huawei International and Keppel are collaborating to promote the wide adoption of PV and BESS technologies in Asia and other key markets.

How will Huawei & Keppel collaborate on a demand response programme?

In Singapore, both parties are collaborating on a demand response programme using a BESS developed at Keppel Infrastructure @ Changi. The BESS will allow Huawei and Keppel to further explore novel smart operations and maintenance solutions to enhance the reliability, performance and efficiency of renewable energy assets.

What is Huawei & Keppel collaborating on?

As part of the collaboration, Huawei and Keppel will jointly explore the design and development of innovative PV and BESS technologies for use in interconnected power grids across the ASEAN region, low-carbon data centres, industrial parks, and hybrid energy systems.
