Inverter manufacturers market share

Overview

Huawei Technologies Co. Ltd. leads the global Inverter Market with a dominant 21.20% market share, driven by its robust portfolio of smart solar inverters and deep integration of AI and IoT technologies. Which region is the largest market for inverter market?

Asia Pacific is expected to be the largest market for inverter market during the forecast period. The growth is attributed to clean energy targets, fostering demand for inverters in solar and wind power projects. The market growth can be attributed to factors such as the increasing adoption of renewable energy sources, such as solar and wind power.

What is the global inverter market segment?

The global inverter market is segmented into various types of products, such as central inverters, hybrid inverters, microinverters, and string inverters. According to our analysis, central inverter segment will augment the segment's growth with the largest market share during this forecast period.

Why is the global inverter market growing?

The main drivers to the growth of the global Inverter market are an increasing number of installs of solar power systems and growing demand for energy-efficient solutions in industrial automation. Find out what an inverter is doing to convert DC power into AC and promote energy efficiency.

What is a solar inverter market?

The solar inverter segment is the largest market in the inverter business, owing to the increasing usage of solar energy all over the world. Through 2023, the US has installed more than 200 GW of solar capacity to power more than 36 million homes, according to the Solar Energy Industries Association.

Which companies are in the solar inverter market?

Prominent companies in this market include Huawei Technologies Co., Ltd.

(China), SUNGROW (China), SMA Solar Technology AG (Germany), Power Electronics S.L. (Spain), and Fimer Group (Italy). The solar inverter segment is the largest market in the inverter business, owing to the increasing usage of solar energy all over the world.

What is the global PV inverter market size?

The global pv inverter market size was estimated at USD 13,088.5 million in 2023 and is projected to reach USD 41,869.7 million by 2030, growing at a CAGR of 18.1% from 2024 to 2030.
