Is it safe to use outdoor power supply in Sao Tome and Principe

Overview

Only type F power points are permitted because they are grounded and therefore significantly safer. The only exception to this rule is that an old type C outlet should be replaced by a new one. Are there power plugs in Sao Tome & Principe?

The power plugs in Sao Tome & Principe are the standard European 220V dual-pin power plugs. Everyone except mainland Europeans will have to bring a power adapter. Power cuts are very normal, so be sure to bring a flashlight. Very few villages outside the capital have electricity.

Are there any studies on solar power potential in Sao Tome & Principe?

2. Solar PV: As per the publication "Emission Reduction Profile: Sao Tome and Principe", June 2013" prepared by RISO with the support of ACP-MEA & UNFCCC, there are, to date, "no official studies on the exact solar power potential: therefore, further calculations of the emissions reduction potential can be hazardous".

Who owns electricity in Sao Tome & Principe?

Electrical power in the country is provided by the Empresa de Agua e Electricidade (EMAE), a public-private company that is 51% owned by the Government of Sao Tome and Principe, and the remaining 41% is jointly owned by the private sector, with Sonangol holding 40% and a local anonymous enterprise owning the remaining 9%.

Does Sao Tome and Principe have a national energy policy?

Sao Tome and Principe has not yet developed a National Energy Policy. However, with every change in Government, the incoming Government formulates its development plan with the last one prepared in October 2013 and entitled "Grandes Opções do Plano para 2014" (Major Options of the Plan for 2014).

Are the streets in so Tomé paved?

The streets in the city of São Tomé are paved, but large potholes are common. Major roads outside of town are also paved, but often in bad repair; pedestrians, cyclists, motorcyclists, and animals can be a major hazard, and small landslides can also occur in rural areas after heavy rainfall.

What is so Tomé and Cao Grande like?

Both islands are blanketed in emerald jungle, fringed by beaches and hidden coves of the golden sand variety with peaks like São Tomé's Cao Grande, an otherworldly granite spike rising 663m (2,175ft) above the jungle.
