

## SolarTech Power Solutions

# Is there an energy storage power station in Cape Town

## Overview

---

At the present time and to the southeast of Cape Town near Grabouw, Eskom operates the 400MW Palmiet pumped storage installation that involves using Steenbras Dam as the Upper Reservoir and a lower reservoir located some 60-m below ground level, where pumping turbines are installed. Will Cape Town release an RFP for 100MW battery energy storage?

The City of Cape Town will, in the third quarter of this year, release an RFP for 100MW of battery energy storage systems in an effort to bolster energy security.

Will Cape Town own a solar plant?

The city of Cape Town, South Africa, has started building a 7 MW solar plant that it will own and operate. It has also launched a tender for a 5 MW/8 MWh battery energy storage system to be built at the same site. Cape Town is set to become the first city in South Africa to own and operate its own solar plant.

How does Cape Town support decarbonisation of electricity?

ties and the City of Cape Town's Energy Strategy  
THE KEY AREAS OF ALIGNMENT INCLUDE: Decarbonisation of electricity is evidenced through the City of Cape Town's delivery and support of new renewable energy sources (whether owned or procured by the City or from the private sector) to reduce the local grid emissions factor. This is.

What is the energy demand in Cape Town?

the City, residents, and businesses in Cape Town. The overall energy demand of Cape Town is made up of the liquid fuels, gas, and electricity used in the transport sector, buildings.

What are the main sources of energy in Cape Town?

from generation, to distribution, and to demand. Liquid fossil fuels: Combined, the use of petrol, diesel, and parafin makes up the largest source of energy in

Cape Town and is mainly used for transport and increasingly as a source of back-up power s.

How is Cape Town preparing for the wholesale electricity market?

offered by energy trading platforms and wheeling. With significant shifts expected in the short term with regard to how the wholesale electricity market operates in South Africa, the City of Cape Town is preparing itself as a utility to be a valuable contributing member of this market to both manage risks
