Japanese super capacitor price

Overview

Are Japanese capacitors better than Chinese capacitors?

This is also why Japanese capacitors are always preferred. However, there are two problems with using Japanese-made caps: their cost is higher and sometimes there are availability problems. Most PSU factories are located in China, so they have to import the capacitors from Japan, requiring additional time and shipping costs.

What is a super capacitor?

For those of you who don't know much about super capacitors, here is a little bit of fun theory: Super capacitors act like any other kind of capacitor, only they can store tremendous amounts of energy. Many capacitors that you'd have seen in audio circuits have capacitances such as 470uf or 680uf (micro farads).
