Lithuania New Energy Storage Project

Overview

What is a new energy storage project in Lithuania?

The plan involves direct grants to support investments in the deployment of at least 1,200 MWh of new energy storage systems across Lithuania. The tender will be administered by the Environmental Project Management Agency (EPMA). The deadline for applications is June 17, 2025.

Will EU grant a battery storage project in Lithuania?

European Commission delegation visiting a Fluence battery storage project in Lithuania. Image: Energy Cells via LinkedIn. Lithuania can move ahead with a scheme to provide €180 million (US\$200 million) in grants to energy storage projects after it was approved by the EU.

Why is Lithuania launching a major energy storage procurement exercise?

Only a day before cutting ties with the Russian power grid, the Baltic state announced the launch of a major energy storage procurement exercise. Lithuania has announced a EUR 102 million (\$ 105 million) energy storage tender in a bid to procure balancing services to the transmission system operator and ensure the resilience of its grid.

Will Lithuania install 800 MWh of energy storage facilities?

In the procurement exercise, Lithuania is seeking to install at least 800 MWh of energy storage facilities, which will be directly connected to the transmission network by the end of 2028.

What is Lithuania's first commercial battery storage facility?

Located near Vilnius, this project will be the country's first commercial battery storage facility and is expected to increase Lithuania's total storage capacity by approximately 50%. The system is scheduled to begin operations by the end of 2025.

Does Lithuania need a new energy system?

Lithuania imports a large share of its electricity needs, while bioenergy is taking the lead in domestic energy supply. By 2030, Lithuania wants to reduce its electricity imports by half and produce 70% of its electricity needs from domestic sources. It plans to complete its synchronisation with the continental European power system by early 2025.

Lithuania New Energy Storage Project

Lithuania expands energy storage scheme amid ...

Jul 25, 2025 · Just one day before disconnecting from the Russian power grid on Feb. 8, Lithuania launched a major energy storage procurement initiative aimed at reinforcing grid stability and ...

The latest completion date of Lithuania energy storage project

Will Lithuania receive energy storage units in September? The remaining battery parks will receive the energy storage units in September', said R. Stilinis. The energy storage facility ...

Baltic BESS projects sold by Aura Power, Danish Sun Energy

Jul 10, 2025 · Large-scale BESS project sales in the Baltic region, with Aura Power selling to Karjeru linija and Danish Sun Energy selling to Sunotec.
