Overview

What are the technical specifications for mobile broadband base station Radio Frequency equipment?

Technical Specifications for Mobile Broadband Base Station Radio Frequency Equipment 1. Legal Basis The Specifications are established on Paragraph 2, Article 66 of the Telecommunications Management Act. 2. Definitions and Abbreviations: 2.1 Definitions: NTXU, counted per cell: Number of active transmission units in a single cell.

What is a BS type 1 NR base station?

BS type 1-C: NR base station operating at FR1 with requirements set consisting only of conducted requirements defined at individual antenna connectors. BS type 1-H: NR base station operating at FR1 with a requirement set consisting of conducted requirements defined at individual TAB connectors and OTA requirements defined at RIB.

How many types of base station configurations can be defined based on 3GPP?

You can define four types of base station configurations according to 3GPP, depending on the conducted or radiated type of the test. Type 1-C refers to the NR base station operating at FR1 with requirements defined at individual antenna connectors.

How to test a BS type 1 H base station?

A BS Type 1-H base station shall be tested at the emission end of every TAB antenna port according to its operating frequency band. 6.1.1.1.2.2 The channel bandwidth and subcarrier spacing shall be defined in normal environment and voltage according to Table 35.

What is the operating range of the addressed antennas?

The operating range of the addressed antennas shall be limited within the 400

MHz - 6000 MHz spectrum. For the scope of this document, certain words are used to indicate requirements, while others indicate directive enforcement. Key words used numerous time in the paper are:.

Is there a standard for a base station antenna?

The BSA's influence on coverage, capacity, and QoS is extensive, and yet there exists no comprehensive, global, standard focusing on the base station antenna. The purpose of this whitepaper is to address this gap. In particular, the following topics will be covered in various degrees of detail:
