

## SolarTech Power Solutions

# Motorhome with double-sided solar panels

## Overview

---

Should you install a solar panel system on a motorhome?

A solar panel system for motorhomes is one of the best ways to become energy independent and remain off-grid for as long as possible. It means more time on the road and less time hooked up to shore power at the campground.

How do solar panels help motorhome owners?

Solar panels help motorhome owners to power various appliances and systems within their vehicles, without relying solely on external power sources. They can also be used to top up the charge of your leisure batteries.

Where can I get solar panels fitted for my motorhome?

At Motorhome Workshop, you'll find a one-stop solution for your off-grid power needs, so you can have motorhome solar panels fitted with confidence and convenience. We offer solar panels on a supply + fitting basis, for all types of motorhomes, campervans and caravans. Our range of 12v kits shown below, all include fully warrantied panels.

Which solar panel is best for a motorhome?

Monocrystalline is the best choice when selecting solar panels for your motorhome, giving you the highest efficiency ratings and longevity. Take the EcoFlow 400W Rigid Solar Panel, for example. It features a foldable one-piece with an IP68 waterproof rating to protect against all outdoor elements, including dirt, debris, and water.

How much do solar panels cost in a motorhome or campervan?

The cost of purchasing and installing solar panels in a motorhome or campervan varies depending on the type and size of solar panel you choose. On average, at the time of writing, you can expect to invest between £600 to £1200. Up to date pricing is available further down the page.

How do solar panels work on a caravan or motorhome?

The wind then catches the solar panels, and its bye-bye. Or, it stays attached via the power cable and repeatedly smashes into the roof of your caravan or motorhome. So if you are going to use a bonding agent to secure a solar panel to the roof of your caravan or motorhome, thoroughly clean the surface.
