Naxin lithium battery pack

Overview

Is naxtra the world's first sodium-ion battery?

CATL has officially unveiled the Naxtra Battery, claiming it to be the world's first Sodium-ion Battery produced on a mass scale. The announcement at CATL 's Super Tech Day marks a significant milestone in the energy industry, as Naxtra harnesses sodium's natural advantages to push beyond resource constraints.

Why is naxtra launching a sodium-ion battery at CATL's Super Tech Day?

The announcement at CATL 's Super Tech Day marks a significant milestone in the energy industry, as Naxtra harnesses sodium's natural advantages to push beyond resource constraints. What Makes Sodium-Ion Batteries Unique?

.

What is a naxtra battery?

According to CATL, the Naxtra Battery lays the groundwork for energy freedom by reducing dependence on limited lithium reserves. CATL 's Naxtra Battery product line features two distinct models: the Naxtra passenger EV Battery and the Naxtra 24V Heavy-Duty Truck Integrated Start-Stop Battery.

What is naxtra & Shenxing Superfast charging?

Naxtra, the world's first mass-producible sodium-ion battery, breaks resource constraints and strengthens the foundation of the new energy industry. The second-generation Shenxing Superfast Charging Battery, with its peak 12C charging rate, sets a new global record for superfast charging technology.

How safe is a CATL naxtra battery?

CATL notes the system offers intrinsic safety features, transitioning from the "passive defense" approach seen in older battery technologies. This innovation ensures both user safety and consistent battery performance over

time. In addition to the Naxtra line, CATL revealed the Shenxing Superfast Charging Battery.

How much power does a naxtra passenger EV battery produce?

In an extremely low state of charge with only 10% SOC remaining, the Naxtra passenger EV Battery can still achieve no significant power degradation at a temperature of -40 °C. CATL's Naxtra passenger EV Battery achieves an energy density of 175Wh/kg, the highest among sodium-ion batteries worldwide, and comparable to LFP batteries.

Naxin lithium battery pack

"NaXin", "Xiaoyao Dual-core" CATL opens the multi-core era

Apr 21, 2025 · According to Gao Huan, chief technology officer of CATL's domestic passenger and commercial vehicles, this is a lithium iron phosphate battery with a range of 800 ...

CATL Launches Three New Power Batteries Featuring Sodium ...

Jun 13, 2025 · On April 21, 2025, CATL held its first Super Technology Day and released three new power battery products - the Naxin passenger car power battery, the Xiaoyao dual-core ...

12.8V 200Ah

APPLICATION SCENARIOS

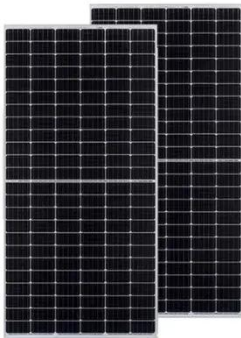

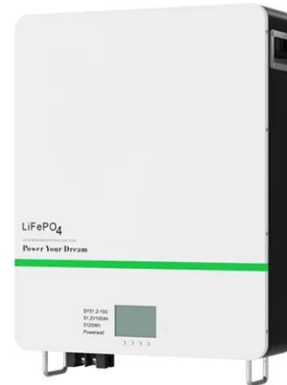

CATL unveils three new EV battery products: dual-power ...

On April 21, 2025, China-based battery giant CATL unveiled three new EV battery products at its inaugural Super Tech Day on 21 April: The Freevoy Dual-Power Battery; Naxtra--a mass ...

Adaptive battery thermal management systems in unsteady ...

Oct 1, 2024 · With the increasing attention paid to battery technology, the microscopic reaction mechanism and macroscopic heat transfer process of lithium-ion batt...

Global sodium-ion battery market: Breaking barriers and ...

Apr 29, 2025 · In 2025, the global energy transition is accelerating, highlighting bottlenecks in lithium resources. Sodium-ion batteries (SIBs) are rising at an unprecedented pace, breaking ...

A lithium-ion battery state of charge estimation method ...

Feb 1, 2025 · State of charge (SOC) estimation is crucial for battery management systems (BMS), which relies on accurate battery mathematical models. The conventional equivalent circuit ...

Correlations of lithium-ion battery parameter variations and ...

Jan 1, 2023 · Abstract Battery cell-to-cell parameter variations and connected configurations jointly affect pack performance. Knowledge of the quantitative correlations of lithium-ion ...

CATL Unveils 2nd-Gen Shenxing Ultra-Fast Charging, Naxin ...

Apr 23, 2025 · On April 21, CATL introduced two innovative battery technologies during its Supertech Day event, focusing on "supercharging" and "safety." The second-generation ...

CATL Introduces First Mass-Produced Sodium-Ion Battery

Apr 25, 2025 · CATL has officially unveiled the Naxtra Battery, claiming it to be the world's first Sodium-ion Battery produced on a mass scale. The announcement at CATL 's Super Tech ...

Naxin lithium battery price list pictures

How many lithium ion battery companies are there in China? China's lithium-ion battery market is also booming, with 47400 lithium ion battery companies as of September 2021. In the past 10 ...

CATL unveils Naxtra Sodium-Ion Battery

Apr 25, 2025 · CATL has unveiled three groundbreaking EV battery products at its inaugural Super Tech Day: The Freevoy Dual-Power Battery, Naxtra - the world's first mass produced ...

Catl's launch of a sodium-ion battery brand may challenge ...

According to reports from Securities Times and Xinhua News Agency, CATL officially launched "Naxin" at the Super Technology Day event in Shanghai on Monday (April 21st), and ...

A Multi-objective Optimization Charging Strategy for Lithium ...

Request PDF , On Oct 30, 2020, Jiawei Liu and others published A Multi-objective Optimization Charging Strategy for Lithium Ion Battery Based on Lithium-plating Inhibited Model , Find, read ...

CATL Unveils 2nd-Gen Shenxing Ultra-Fast Charging, Naxin ...

Apr 23, 2025 · The second-generation Shenxing ultra-fast charging battery, the world's first lithium iron phosphate (LFP) battery to combine 800 km of range with 12C peak charging capability, ...
