

## SolarTech Power Solutions

# New energy storage 80 kWh charging equipment

Warranty  
**10 years**

LiFePO<sub>4</sub>

Intelligent BMS

Wide Temp:  
-20°C to 55°C

## Overview

---

What is a 80kWh battery?

The 80kWh battery meets energy needs for residential, commercial, emergency, and industrial applications. Price: Click The Button Below To Get A Discount Price. The 80kWh battery pack consists of five 16kWh LiFePO4 battery modules.

Can a DeLong 80kWh battery be used as a solar energy system?

DeLong's 80kWh battery pack can be connected to an inverter or PCS to form a solar energy system. This system can output a voltage of 512V. You can use it in grid-tied, off-grid, or hybrid modes. The 80kWh battery meets energy needs for residential, commercial, emergency, and industrial applications.

What is energy storage mobile charging?

Our Energy Storage Mobile Charging system is crafted to withstand a variety of environmental conditions. Its robust design ensures stable and reliable performance, regardless of the weather or climate. With this system, you can be confident that your charging needs will be met with consistency and dependability.

How many volts can a 80 kWh battery output?

This system can output a voltage of 512V. You can use it in grid-tied, off-grid, or hybrid modes. The 80kWh battery meets energy needs for residential, commercial, emergency, and industrial applications. Price: Click The Button Below To Get A Discount Price.

Can a 80 kWh solar battery charge a car?

You don't need to worry about compatibility. The 80 kWh solar battery has a rated voltage of 512V, supporting higher power applications. It can cover household electricity needs and even has the capacity to feed back into the grid. This battery can also serve as a charging station for electric vehicles.

What is DeLong 500V 80kWh battery pack?

DeLong 500V 80kwh battery pack has a long lifespan and excellent safety performance, suitable for residential, commercial, emergency power, and industrial.

## New energy storage 80 kWh charging equipment
