

## SolarTech Power Solutions

# Nordic power inverter manufacturer

## Overview

---

Who is Nordic drives group?

Serving the Nordic industry Nordic Drives Group is a group of Nordic companies with an entrepreneurial spirit, specializing in electric drives and power systems. We are experts in electric motors, frequency converters, industrial automation, and electromechanical services.

Why should you choose a Nord frequency inverter?

Functional safety is integrated thanks to STO and SS1. NORD Frequency Inverters also offer integrated brake rectifiers for motor brake control. An energy saving function for partial load operation as well as operating and parameter set-up tools plus a simple parameter structure complete the possibilities of our modular system.

What is a Nord frequency inverter & motor starter?

NORD Frequency Inverters and Motor Starters are ideal both for centralised operation in a control cabinet as well as for decentralized, fully integrated use directly on the motor. The inverters are Industry 4.0 ready, can be networked and with the internal PLC enable pre-processing of internal status data or data from externally connected sensors.

Who is Nordic drives group Söderhamn?

Sweden Nordic Drives Group Söderhamn, formed from a merger, excels in repair, maintenance, and sales of frequency converters, motors, and more. Contact us If you wish to contact Nordic Drives Group, please use the form or email us at [info@nordicdrivesgroup.com](mailto:info@nordicdrivesgroup.com).

Why should you choose a Nord plc?

The PLC integrated in the NORD decentralised drives enables the customer to design modular and autonomous production systems. The NORD CON tools simplify the entire installation process and allow for easy adjustment and

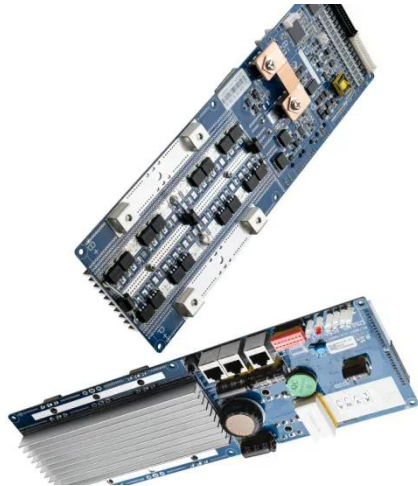

operation of the technology. With optimised cabling, users can save system costs.

What is a frequency inverter?

Frequency Inverters from NORD DRIVESYSTEMS are equipped with powerful processors and provide optimum control precision. Integration of the inverter into various control architectures is guaranteed by a wide variety of different communication interfaces.
