Paris shuts down green base station services

Overview

Why were Eurostar trains halted in Paris?

A general view of passengers at St Pancras International station in London, Friday March 7, 2025, after Eurostar trains to the capital have been halted following the discovery of an unexploded Second World War bomb near the tracks in Paris. (James Manning/PA via AP) The Gare du Nord train station is pictured on Jan. 11, 2023 in Paris.

Why is Paris Gare du Nord closed?

French police have shut down all traffic to and from the station following the find "in the middle of the tracks" in the Saint Denis area, according to French national railway company SNCF. Paris Gare du Nord, one of the French capital's busiest train stations, has been closed after the discovery of a World War Two bomb on nearby tracks.

What happened to the Paris train station?

Its services from London to Brussels and London to Amsterdam, which do not go via Paris, were running normally. In 2019, the discovery of a wartime bomb interrupted traffic between the Saint-Lazare station and the western suburbs of Paris.

What happened at Paris airport after a bomb exploded?

The bomb's discovery prompted immediate action from authorities, with Paris police working to disable the device. The unexploded ordnance has halted operations at the major transport hub, which serves as a terminal for Eurostar, high-speed and local train services.

What happened in Paris after a World War II bomb?

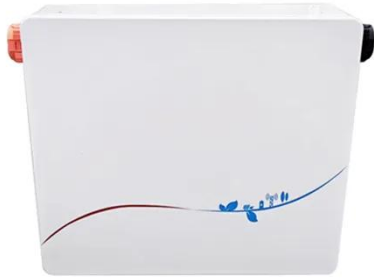

A police officer directs the traffic after the discovery of a huge unexploded World War II-era bomb caused transportation chaos in Paris, that included the suspension of high-speed rail links with London and Brussels and the closure

of a vital road artery in the French capital Friday, March 7, 2025 in Saint-Denis, outside Paris.

Why did France shut down a train station in Saint Denis?

The disruption has caused significant travel chaos for passengers attempting to travel between the two capital cities. French police have shut down all traffic to and from the station following the find "in the middle of the tracks" in the Saint Denis area, according to French national railway company SNCF.
