Photovoltaic panel 550v home complete set

Overview

What is a Lvtopsun 550W solar panel?

This panel is built to withstand 5400 Pa of snow load and 2400 Pa of wind load, making it suitable for installations in various climates. With its advanced technology and robust design, the LVTOPSUN 550W panel is an excellent choice for both small- and large-scale solar projects. LVTOPSUN 550W Solar Panel Technical Data General Information:.

What is the maximum power output of a solar panel?

With a maximum power output of 550W and a cell efficiency of 21.3%, it is ideal for those looking to maximize energy production on limited space. The panel utilizes half-cell technology, which reduces power loss and boosts overall system efficiency, especially in shaded conditions.

What makes a solar panel a good choice?

The panel utilizes half-cell technology, which reduces power loss and boosts overall system efficiency, especially in shaded conditions. Frame: The panel features a durable anodized aluminum frame, providing protection against environmental stress. Glass: 3.2 mm tempered glass adds to the overall durability.
