Photovoltaic panel price ranking

Overview

How much does a photovoltaic panel cost?

Mainstream Photovoltaic Panels: Average price of €0.10/Wp, down 9.1% month-on-month. Low-Cost Photovoltaic Modules: Average price of €0.060/Wp, a decrease of 7.7% compared to the previous month. These figures underscore the significant pressures in the photovoltaic market, as price reductions strain margins to unprecedented levels.

Who are the top 20 global photovoltaic module manufacturers?

During the conference, PVBL announced its annual ranking of the top 20 global photovoltaic module manufacturers. In 2024, the global solar module market continued to see the strongest players thrive, with the top four enterprises — JinkoSolar, LONGi, Trina Solar and JA Solar — collectively shipping over 320GW and dominating the industry.

How much does a photovoltaic module cost?

Mainstream Modules: Average price of €0.11/Wp, stable compared to September but 21.4% lower than January 2024. Low-Cost Modules: Average price of €0.065/Wp, a 7.1% decrease from September and 27.8% from January 2024. These trends are exerting mounting pressure on the photovoltaic sector.

What is the average solar PV utilisation rate?

Despite facing significant challenges, including unprecedented price declines across solar modules and the silicon supply chain, the top ten solar PV manufacturers achieved an average utilisation rate of 66%, most surpassing 70%, as reported by Wood Mackenzie.

How much did solar panels cost in October 2024?

Here's a detailed breakdown: High-Efficiency Solar Panels: The average price was €0.125/Wp, marking a 3.8% decrease compared to October 2024.

Mainstream Solar Panels: Prices averaged €0.095/Wp, experiencing a 5% decline from October 2024. Low-Cost Solar Panels: Prices remained stable at €0.060/Wp, unchanged from the previous month.

What is residential solar PV?

As solar prices continue to decline, utility solar PV plays a key role in the global energy transition, supporting large-scale renewable energy adoption. Residential solar PV refers to home solar power systems that generate electricity using photovoltaic (PV) panels.
