Portable battery cabinet customization

Overview

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

How to customize a battery enclosure?

Any flat side of the enclosure can be silk-screened with labels, warnings, serial number, company name, and logo. Engraving your battery enclosure is another customization method. Usually, about 0.005 inches or 0.010 inches of metal is removed from the surface. The requested symbol is basically scratched into the surface.

Can everexceed provide customized battery rack / cabinet system?

We can supply customized lead acid battery rack and cabinet system for solar, UPS, Telecom, Data center etc. EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell.

What is a KDM battery enclosure?

KDM battery enclosures keep your batteries safe from weather and safe against theft. The battery enclosure maintains consistent temperatures and meets standard requirements. Our battery enclosure also features locking mechanisms that protect unauthorized people against possible electrical dangers if they happen to be tampering with your equipment.

Why do I need a caster on my KDM China battery enclosure?

Lifting eyes help transport your enclosure if it is too big for casters, which may be the case with solar battery bank enclosures and NEMA generator

enclosures. Casters make the enclosure mobile, which is great for a battery cabinet. Thermometers may also be important to monitor the temperature inside your KDM China battery enclosures.

Why is aluminum a good battery enclosure material?

Aluminum has a layer of oxide on top that prevents any corrosion. Aluminum battery enclosures are highly popular for all designs of cabinets and cases because aluminum is lightweight. This material is especially good for battery enclosures exposed to solvents, petrochemicals, some acids, most sulfates and nitrates.
