# Portable photovoltaic panel prices in Victoria

## Overview

---

Australia is home to some of the best solar energy resources in the world. Although Melbourne, Victoria is a bit further south than Brisbane or Sydney, there's still enough sunshine to make panels a worthwhile investment. According to PVWatts, a typical Melbourne home's roof.

Thanks in great part to the STC rebate and the Victorian State scheme, Melbourne is home to some of the lowest PV system installation prices in the world – one of the reasons.

**Federal STC Upfront Rebate** For those looking for solar rebates, the federal government's Renewable Energy Target contains a mechanism that reduces the up-front cost of.

According to our analysis, Victorians who are eligible for the Solar Victoria rebate have the best case for solar anywhere in Australia, including.

How much do solar panels cost in Victoria?

One of the primary concerns when considering solar panels is the upfront cost of installation. In Victoria, the cost of installing solar panels can vary depending on several factors, including the size of your solar system and the quality of the panels. On average, a 6.6kW solar panel installation can cost between \$4,000 to \$10,000.

Are there rebates for solar panels in Victoria?

In Victoria, there are various government incentives and rebates designed to encourage solar panel installations. The most notable of these is the Solar Homes Program, which provides rebates and interest-free loans for eligible solar panel installations. This program can significantly reduce the initial cost of your solar system.

How much does a solar PV system cost in Australia?

These prices include the STC discount (Renewable Energy Target incentive) and GST, representing the total retail cost to the customer. A commonly sized 6kW Solar PV System would cost between \$4,000 and \$6,000 in most states in

Australia, while a 10kW system typically falls between \$7,500 and \$10,500.

Are solar panels a good option in Melbourne?

Solar Panels Melbourne: Compare Solar Prices and Installers in Victoria With Melbourne's rising electricity costs and ample sunlight coming into the Summer months, solar panels are quickly becoming the preferred energy solution for households across Victoria.

Are solar panels a good choice in Victoria?

When it comes to adopting the power of the sun to lower your energy bills and reduce your carbon footprint, solar panels are an exceptional choice. They have become increasingly popular in Victoria, and for good reason.

How much does rooftop solar cost in Melbourne?

This affordability has contributed to the widespread adoption of rooftop solar across the state. According to Solar Choice's data from July 2023, the average cost for a 6.6kW system in Melbourne is around \$6,030 (including the STC rebate and GST but excluding the state rebate). If eligible, the Solar Victoria Rebate can reduce costs by \$1,400.
