

## SolarTech Power Solutions

# Portugal Porto communication energy storage battery

## Overview

---

Does Portugal need a power grid stability & energy storage solution?

Portugal: The country aims to source over 90% of its power from domestic renewables by 2030, with significant contributions from wind and hydroelectric power. Despite these advancements, the blackout revealed the need for improved grid stability and energy storage solutions to handle unexpected disruptions.

How much will Portugal invest in grid management after a blackout?

REUTERS/Pedro Nunes/File Photo Purchase Licensing Rights LISBON, July 28 (Reuters) - The Portuguese government plans to invest up to 400 million euros (\$466 million) to improve grid management and boost battery storage following a massive blackout across Spain and Portugal in April.

How much electricity does Portugal use?

Portugal has only about 13 megawatts of battery storage capacity, and the goal is to reach 750 megawatts, although no timetable has been set yet. According to the latest daily data from REN, electricity consumption in Portugal stood at 115 GWh on June 20. (\$1 = 0.8581 euros).

What happened in Portugal during a power outage?

Portugal: Cities such as Lisbon, Porto, Coimbra, and Braga were impacted. The outage also caused disruptions in public transportation, communication networks, hospitals, and commercial centers, leading to widespread challenges for residents and businesses alike. Where Do Spain and Portugal Get Most of Their Electricity?
