Prices of photovoltaic panels in Brussels

51.2V 300AH

Overview

How much does a solar panel installation cost in Brussels?

On average, the price of a solar panel installation in Brussels is between 5,000 and 15,000 euros. This price usually includes the solar panels, the inverter, the battery for solar panels, and the installation. The Brussels-Capital Region grants green certificates to encourage individuals and businesses to invest in solar panels.

Does Belgium pay for solar panels?

Each Belgian region (Flanders, Wallonia and Brussels) offers money to help pay for the installation of solar panels. The amount varies depending on where you live. Go to an online simulation to find out more. In Wallonia, for example, this aid can cover a large part of the installation costs.

How does Belgium support solar panels?

Belgium encourages the use of solar energy by offering various forms of financial support. This support makes the installation of solar panels more affordable for many people. Each Belgian region (Flanders, Wallonia and Brussels) offers money to help pay for the installation of solar panels. The amount varies depending on where you live.

Can you install solar panels on a roof in Belgium?

Installing solar panels on your roof is a (very) cost-effective operation. In Belgium, there are a number of subsidies to help cover the cost of installing solar panels. You can also choose the model of the self-consumption of energy produced by panels, which is also very advantageous.

Why should you install solar panels in Brussels?

The main advantage of installing solar panels in Brussels lies in the green certificate system. Each green certificate is equivalent to the avoidance of 217 kg of CO2 emissions and can be sold to an energy provider or intermediary.

How much does a solar panel installation cost?

A complete solar panel installation typically costs an average of 3 000 to 5 700 euros, including installation costs and excluding VAT. The exact cost of your solar panels depends on factors such as the type of installation and the number of panels, while the number of panels you install depends on your energy consumption.
