# Small power solar power generation system

## Overview

---

What is a solar power generation system?

Solar power generation system is the conversion of energy from sunlight into electricity, either directly using photovoltaic (PV), or indirectly using concentrated solar power. Concentrated solar power systems use lenses or mirrors and tracking systems to focus a large area of sunlight into a small beam.

What is grid connected solar photovoltaic (SPV)?

Therefore, in order to satisfy the load demand, grid connected energy systems are now becomes promising options that combine solar and conventional energy systems to meet the future energy demand at reduces consumption of fossil fuels. In the present work it is tried to develop a small scale grid connected solar photovoltaic (SPV) system.

Can a solar photovoltaic system provide a continuous supply of energy?

Solar energy is clean, inexhaustible and environment-friendly potential resource among renewable energy options. But neither a standalone solar photovoltaic system nor a wind energy system can provide a continuous supply of energy due to seasonal and periodic variations.

What is the potential of solar photovoltaic (PV) power generation system?

The potential of solar photovoltaic has therefore been estimated at 20 MW per square km . Grid interconnection of photovoltaic (PV) power generation system has the advantage of more effective utilization of generated power.

Is solar energy a viable alternative energy source?

The depletion of fossil fuel resources on a worldwide basis has necessitated an urgent search for alternative energy sources to meet up the present day demands. Solar energy is clean, inexhaustible and environment-friendly potential resource among renewable energy options.

How to design a single phase 1kW power plant?

Design of a Single Phase 1kW Power Plant For 1 kWp plant, the required no of module=  $1000/250=4$  numbers (considering the module specification, which is given Table 1.) Now to form Solar Photovoltaic Plant, 4 modules are connected in series combination.
