

SolarTech Power Solutions

Solar circuit breaker factory in Azerbaijan

Overview

Why should BP invest in renewables in Azerbaijan?

As the largest investor in Azerbaijan's oil and gas sector, bp's increased efforts to invest in renewables further strengthen the long-term strategic foundation of our partnership. "Together with bp, we are not only ensuring a reliable energy supply but also laying the foundation for a sustainable, low-carbon future."

How many jobs will the Shafag solar plant create?

Construction activities for around \$200 million Shafag solar plant are expected to commence this year and continue through mid-2027, utilizing primarily local resources. It is expected that, at peak, construction activities will create up to 400 jobs. The Shafag project will be developed and managed by Lightsource bp, a company fully owned by bp.

How is Azerenerji & Shafag connected?

The two projects are closely linked via a new commercial structure called 'virtual power transfer arrangement,' based on which the Shafag plant would produce power and deliver it to AzerEnerji in the Jabrayil district, while AzerEnerji would deliver an equivalent quantity of electricity to the Sangachal terminal near Baku.

Why is Azerbaijan celebrating new milestones?

"It has become a tradition in Azerbaijan's energy sector, embraced by President Ilham Aliyev's personal dedication and unwavering support, to frequently witness new milestones.
