Solar power with grid backup in Canberra

Overview

Why should you switch to solar energy in Canberra?

Switching to solar energy in Canberra, ACT doesn't just lower electricity costs—it also opens the door to a range of smart energy solutions that can further maximize savings. Homeowners are now combining solar with air conditioning, heat pumps, and EV chargers to reduce reliance on the grid and improve energy efficiency.

Why should you choose a solar energy storage system in Canberra?

Solar panels enable homeowners and businesses in Canberra to gain access to clean and green energy. With solar batteries, you can store any surplus electricity that your system generates for later use. A solar energy storage system offers many advantages including: The Tesla Powerwall gives you backup power when you need it most.

How many solar panels are installed in Canberra?

Over 11,281 small-scale systems have been installed in Canberra, ACT with a collective capacity of 10,631 kW. Around one in ten households in Canberra, ACT, generates solar power through rooftop installations, contributing to the territory's goal of reaching and maintaining 100% renewable energy.

Why should you choose a solar battery installation service in Canberra?

Our solar battery installation services in Canberra allow you to store unused solar energy for use at night or during blackouts. We offer leading battery brands such as Tesla Powerwall, Alpha ESS, and Sungrow, providing reliable backup power and greater energy independence.

How much energy does a solar system save in Canberra?

In Canberra, the savings from installing a solar system depend on its size and your energy consumption. Here's a breakdown of potential savings for different system sizes: Estimated annual output: Approximately 6,643 kWh.

Why should you invest in solar panels in Canberra?

Increase your savings, reduce your carbon footprint, and achieve energy independence. Solar panels enable homeowners and businesses in Canberra to gain access to clean and green energy. With solar batteries, you can store any surplus electricity that your system generates for later use.
