

## **SolarTech Power Solutions**

**The flow battery industry is  
growing explosively**

## Overview

---

The North American flow battery market has established itself as a significant player in the global landscape, holding approximately 8% of the global market share in 2024. The region's market is primarily driven by substantial investments in renewable energy infrastructure and.

The European flow battery market has demonstrated remarkable growth, achieving approximately a 17% growth rate from 2019 to 2024, driven by the region's aggressive renewable energy targets and commitment to energy transition. The.

The Asia-Pacific flow battery market is positioned for exceptional growth, with projections indicating approximately a 21% growth rate from 2024 to 2029. The region represents the largest market for flow batteries globally, with China leading the deployment and.

The Rest of the World region, encompassing the Middle East, Africa, and South America, represents an emerging market for flow battery technology with significant growth.

BOSTON, Jan. 31, 2025 /PRNewswire/ -- According to the latest study from BCC Research, "Flow Batteries: Global Markets" is expected to grow from \$416.3 million in 2024 to \$1.1 billion by the end of 2029, at a compound annual growth rate (CAGR) of 21.7% from 2024 through 2029. How big is the flow battery market?

The Flow Battery Market is projected to experience a significant growth spurt, with its size estimated at USD 0.88 billion in 2024 and reaching USD 2.32 billion by 2030, growing at a CAGR of 15.41% during the forecast period (2024-2030).

What is the growth potential of the flow battery market?

This trend underscores the growth potential of the flow battery market, as these technologies become crucial in the flow battery energy storage systems market. The Vanadium Redox Flow Battery (VRFB) segment dominates the global flow battery market, commanding approximately 83% market share in 2024.

What is the expected CAGR of the flow battery market?

The global flow battery market size was valued at USD 328.1 million in 2022 and is anticipated to grow at a compound annual growth rate (CAGR) of 22.6% from 2023 to 2030. The rising demand for energy storage systems globally is the primary factor for market growth.

What is the global flow battery market?

On the basis of its application, the global flow battery market can be segmented into power, automotive, residential, industrial, energy storage, and others. The increasing demand for electricity and increased adoption of solar and wind power has seen the power segment hold a larger market share in the global flow battery market.

How big is the flow battery market in 2024?

X close The global flow battery market is anticipated to grow from USD 0.34 billion in 2024 to USD 1.18 billion by 2030, recording a CAGR of 23.0% during 2024–2030. The growing penetration of distributed renewable resources like solar and wind energy sources has created the requirement for an effective storage system.

How important is the North American flow battery market?

The North American flow battery market has established itself as a significant player in the global landscape, holding approximately 8% of the global market share in 2024. The region's market is primarily driven by substantial investments in renewable energy infrastructure and favorable government policies promoting energy storage solutions.
