Timor-Leste 5G communication base station hybrid energy construction project bidding

Overview

What is Timor Leste project?

Timor Leste Projects Timor-Leste Projects Projects Strengthening integral local development by building the capacities of the municipal authorities in Timor-Leste (MSA) [Read more](#) Projects Pacific Green Transformation Project [Read more](#) Projects Support for the Institutional Development of RAEOA & ZEESM TL (2019–2022) phase II [Read more](#) Projects.

What is the Timor-Leste solar power project?

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale renewable energy IPP project.

How has the belt and Road Initiative changed Timor Leste?

2023 is the tenth anniversary of the the Belt and Road Initiative. The "One Network, One Road, One Port" project jointly constructed by Timor Leste and China, namely, the National Grid of Timor Leste, the Su'ai Expressway and the Tiba Port, has significantly improved the local infrastructure and improved people's well-being.

What is East Timor State Grid?

The East Timor State Grid project, constructed and operated and maintained by CNNC 22, is the largest power infrastructure construction project in East Timor, including one national dispatch center, nine substations, 603 kilometers of high-voltage transmission lines, and 120 kilometers of medium voltage distribution lines.

What is ADB's Country Partnership Strategy for Timor-Leste?

ADB's country partnership strategy for Timor-Leste for 2023–2027 aims to enhance climate-resilient infrastructure and basic services while fostering an

enabling environment for economic diversification. Projects, project results, and case studies related to Timor-Leste.

What is the 'one port' project in East Timor?

Equally significant is the "One Port" project. The Tiba Port project, constructed by China Harbour, is located 10 kilometers west of the capital Dili. The main body of the port is a 630-meter-long dock, including a 7000 TEU berth and a 3500 TEU berth. It is the first modern international container freight terminal in East Timor's history.
