# Uninterruptible power supply for South America data center

## Overview

---

What is the uninterruptible power supply market?

Based on application, the uninterruptible power supply market is segmented into BFSI, data center, healthcare, telecommunication, industrial applications, government & defense, and others. The data center segment was valued at USD 3.9 billion in 2024 and is expected to grow at a rate of around 6.2% till 2034.

How big is the uninterruptible power supply market in 2024?

The solution segment dominated with over 80% market share, generating around USD 9.5 billion in 2024. What is the market size of the uninterruptible power supply (UPS) market in 2024?

The market was valued at USD 12.1 billion in 2024, with a projected CAGR of 5.6% from 2025 to 2034. What is the projected value of the UPS market by 2034?

.

Which countries use uninterruptible power supplies (UPS) in 2024?

Legrand in October 2024 has launched its Keor MOD range of uninterruptible power supplies (UPS) in Europe that uses hot-swappable power modules, with intelligent energy management. France is also an important market of UPS systems owing to the government developments in digitization and smart city construction.

Which country has the largest uninterruptible power supply market?

U.S. accounted for over 75% share in North America uninterruptible power supply market, generating revenue of USD 3.6 billion in 2024. The US has the biggest national market of UPS systems, which have been prompted by the presence of key technology firms and advanced data facility build-up.

What is Asia Pacific uninterruptible power supply market?

The Asia Pacific uninterruptible power supply market is anticipated to witness lucrative growth between 2025 and 2034. China is the largest market in Asia Pacific that has been facilitated by huge investments in data center infrastructure and industrial automation.

What are the latest trends in data center UPS?

One important trend in the solution segment is the introduction of the lithium-ion battery technology. In May 2025, Eaton introduced the Eaton 9PX Gen2 data center UPS system that supports 5-11kW capacity in a 4U footprint. This is in the development of the UPS solutions to greater efficiency and space utilization.
