

# SolarTech Power Solutions

## Overview

---

How many energy storage projects are there in western Victoria?

In March 2018, 2 projects in Western Victoria were chosen to be part of The Energy Storage Initiative – one in Ballarat and one in Gannawarra. Construction for the Ballarat and Gannawarra Energy Storage Systems was completed in late 2018. Both batteries began operating over the summer of 2018 and 2019.

What is Ballarat energy storage system?

The Ballarat Energy Storage System provides backup power and grid stabilisation, vital to maintaining a reliable and affordable energy supply in Western Victoria. The Gannawarra Energy Storage System is located at the Gannawarra Solar Farm in Wandella, Victoria. The 25MW/50MWh battery is a Tesla Powerpack system.

Where is the Gannawarra energy storage system located?

The Gannawarra Energy Storage System is located at the Gannawarra Solar Farm in Wandella, Victoria. The 25MW/50MWh battery is a Tesla Powerpack system. It's jointly owned by Edify Energy and Wirsol Energy and operated by Energy Australia.

What is the energy storage initiative?

The Energy Storage Initiative supported energy storage technologies and projects to: enhance system security, resilience and reliability. In March 2018, 2 projects in Western Victoria were chosen to be part of The Energy Storage Initiative – one in Ballarat and one in Gannawarra.

When will the Ballarat energy storage system start operating?

Both batteries began operating over the summer of 2018 and 2019. Supporting the integration of energy storage is one of the actions outlined in the Renewable Energy Action Plan, released in July 2017. The Ballarat Energy

Storage System is located at the Ballarat Terminal Station in Warrenheip, Victoria.

Why did energy dome choose Victoria?

Energy Dome chose Victoria for its collaborative energy industry, ambitious net-zero targets, strong commitment to renewable energy and attractive investment initiatives. As the state transitions from coal-fired power and faces growing industrial energy demands, it presents an ideal environment for long-duration energy storage solutions.
