Western Europe battery replacement cabinet

APPLICATION SCENARIOS

Overview

What are the best lithium battery storage cabinets?

Our cabinets, featuring renowned brands like Ecosafe, Cemo, and Armorgard, offer industry-leading solutions for lithium battery storage. Built with advanced fire protection, our products include 60- and 90-minute fire-rated cabinets tested up to 105 minutes to meet EN14470-1 standards, ensuring your batteries are safe even under extreme conditions.

What is a tycorun battery swap cabinet?

The swap cabinet uses intelligent charging strategies to optimize battery performance, with easy maintenance, real-time fault alarms. TYCORUN batteries are built for business swap applications, using top-tier cells that withstand high-frequency daily cycling, with shock resistance, high safety, and integrated smart 4G GPS.

How many battery swap cabinets are there?

With rich industry experience, we have deployed more than 5,000 battery swap cabinets and put into use 65,000+ smart lithium batteries, providing convenient services for drivers in more than 35 countries around the world, helping clients build a profitable and scalable battery swap business.

Why do you need a lithium battery storage cabinet?

As the demand for lithium-ion batteries grows, proper storage and fire protection are essential for operational safety and regulatory compliance. Our cabinets, featuring renowned brands like Ecosafe, Cemo, and Armorgard, offer industry-leading solutions for lithium battery storage.

Why do you need an electric motorcycle battery swap cabinet?

The electric motorcycle battery swap cabinet has been the perfect fit. Its modular design allows us to add more cabinets as our fleet expands, without requiring any major infrastructure changes. This scalability feature has saved

us significant costs and allowed us to easily accommodate our growing number of electric motorcycles.
